

WARRANTY

1. The Fasco warranty covers the tools for a period of 2 (two) years from the Fasco invoice date. During this period the tools must be free from defects in construction, assembly and material. If the tool should prove to be defective in the warranty period, Fasco will repair it or replace any defective part.
2. The repair or replacement of parts under warranty does not lead to prolongation of the warranty period. Every replacement part will carry a warranty for the balance of the period of warranty applicable to the part it replaces.
3. Excluded from the warranty are:
 - Normal wear parts, such as bumpers, o-rings and other rubber components, springs and piston-drivers.
 - Damage caused by the fact that there has not been used clean, dry and regulated compressed air.
 - Damage caused by the fact that the air pressure has exceeded the maximum level indicated on the tool and in the technical specifications.
 - Any damage that results from misuse or misapplication, normal wear, wrong storage, shipping/transport and neglect.
 - Damage caused by improper repairs or modifications or the use of not original Fasco parts
 - Any damage that is a result of not following the instructions in the manual. With the tool purchase these tool instructions are properly signed. Always read the manual before use.
4. The warranty is only valid after the components have been controlled by the technical department of Fasco and a consequential decision has been taken.
5. Fasco S.r.l. is certified ISO 9001;2008 for a complete quality standard. As stated in the reference procedure, it is necessary to make a request to replace components or machines. Returns must be authorized by Fasco, in order to exclude misunderstandings and to manage quickly the repair at Fasco.
6. Additional costs like shipping/transport are at the customer's expense.
7. When the warranty period has ended, all costs for repair or replacement, including handling, inspection, shipping and administrative costs, will be charged to the customer.
8. Fasco reserves the right to change specifications, equipment or designs at any time without notice.
